Direct that the increment of

Loss of measurement books
in the Sub Division at Tumkur

1. In connection with the loss of two measurement books in No 1 Sub Div Tumkur, the Chief Engineer observed that the books ought not to have been sent through a contractor and that he has issued instructions to Sub Div Offices not to send any work record with contractors in future. When the case was submitted for sanction to write off the books from the accounts, it was ordered by Government that the increment of the person responsible be stopped for six months. Along with the Chief Engineer's letter, a copy of report of 26.10.1944 of the Asst Engineer No 1 Sub Division, Tumkur, was received in the matter. With reference to the date of this report, it was gathered from the Civil List that Mr. G. Venkataswami, Asst Engineer, is the Sub Division Officer, and his name was included in the submission notes and orders in the matter have also been issued.

2. It is since learnt that the book

in question were lost long before, during the incumbency of Mr. M. R. Tinnick, Chief Clerk, as the Sub. Dir. Officer of that Sub. Division and that the explanations of parties concerned obtained are available in the records of the local office. It was not possible to make out these from the reports made to Government. Orders are therefore solicited to obtain a more detailed report with the explanations of the parties responsible for the loss of the books from the Chief Clerk so as to enable a modified order being issued in the matter.

6. In connection with the loss of
measurement books of No. 1 Sub Div.
Tumkur, which were sent through a
contractor for being delivered to a sub-
ordinate stationed in a remote
place and which were lost by the
contractor, Government ordered in
G.O. no P.W. 1955-56/166.74-45-1 of 28.9.45,
that the increments of the Sub Div.
Offices of Krishnawaruni, Asst
Engineers, be put off by six months.

7. The Chief Engineer has now
submitted the explanation of the
parties concerned. It is seen there-
from that the measurement books
were lost long back during the
incumbency of Mr. H. T. Venkatesiah
Asst Engineer, as Sub Div Office of
No. 1 Sub Division, Tumkur. From his
explanation it would appear that
the two books were sent through
the contractor to the subordinate at
Kunigal by the Sub Div Clerk Mr. J.
Venkatesiah without his knowledge.
The Clerk in his explanation has
stated that he sent the books in
good faith through the contractor
who is the Vice President of Kunigal
Municipality just to save time
sent to his misfortune the papers
were lost in transit. He begs to be
excused.

8. The Chief Engineer states that
the Clerk has put in 30 years of service
and will be superannuated in

1950 and that it is a common practice in Subdvs to send such measurement books through Contractors. He therefore recommends that the Clerk maybe left off with a severe warning and that the assumed increment of Mr. G. Krishnaswamy maybe passed as usual.

26/2/46 9. The recommendation of the Chief Engineer to grant the increment of Mr. G. Krishnaswamy asist Engineer who is not responsible for this and to warn the Clerk for the mistake of sending the M.B. through the Contractor, may be approved
Secy) 26/2

10 W/rt the loss of measurement Books in No 1 Subdivⁿ, Tumkur, Govt. passed orders that the increment of the A.E. Mr. G. Krishnaswamy be put in charge of the subdivⁿ be put off by six months. The C.E.I. now brings to notice that the A.E. in charge when the books were lost was Mr. M. A. Tirumalachar & not Mr. Krishnaswamy. Further the person responsible was the Clerk of the subdivⁿ, who, without the knowledge of the A.E. sent the ^{mt} books with the Contractor, as it is the usual practice in out of the way the maffossil places. The A.E. is Mr. M. A. Tirumalachar is thus also not responsible, but the Clerk who is about to retire now, may be warned and let off. The increment postponement against Mr. G. Krishnaswamy may also be cancelled. C.E.I.'s recommendation may be accepted.

33) Reg. para 27, it is regretted that the name of Mr. G. Krishnaswamy was mentioned in connection with the loss, instead of that Mr. M. A. Tirumalachar, on the information given by the Sect^{ts} who were misled by the fact that no mention ^{whatsoever} was made of Mr. Tirumalachar in the C.R.I.'s report as being in charge of the subdivⁿ at the time the book was lost and a report from Mr. G. Krishnaswamy who was in charge of the subdivⁿ at the time when report about loss was made, also did not mention at all that he was not in charge of the subdivⁿ at the time of the loss. These circumstances led the P.W. Sect^{ts} to ^{wrongly} assume that the person in charge of the subdivⁿ at the time of the report, viz., Mr. G. Krishnaswamy was the person responsible for the loss. The error is however very much regretted & the Sect^{ts} has been told to be more careful.

34) From the explanation of Mr. M. A. Tirumalachar it appears that the subdivⁿ clerk sent the books ^{with a contractor} ^(which is a very wrong procedure itself) with a contractor, who appears to have mislaid & lost them. The subdivⁿ clerk is responsible for all mt books that go to the subdivⁿ for audit and it is his responsibility to see that they are sent to the subordinates properly & safely. From all this it looks as if the clerk is mainly responsible as is also opined by the C.R.I. The punishment meted out to Mr. G. Krishnaswamy may be withdrawn and the clerk administered a severe warning.

Sir,

With reference to your D.O. letter No.C.14 dated 23-10-1945,
I have the honour to state that it is reported by the Superintending
Engineer, Mysore Circle that Mr.M.A.Thirumalachar, Assistant -
Engineer was in charge of the Sub Division when the measurement books
were lost. The explanation of the Assistant Engineer received from
the Superintending Engineer, Mysore Circle, is herewith enclosed.
It may be seen therefrom that the Measurement books were sent -
through the contractor by the Sub Division Clerk, Mr.J.Venkatesiah
without the knowledge of the Assistant Engineer. The explanation
of the Sub Division Clerk is also herewith enclosed.

2. Mr.J.Venkatesiah, Clerk, has put in 30 years of service in
the Department and he attains the age of superannuation on 29-12.1950.
The clerk is seen to have sent the Measurement books in good faith
and as usual here and in other Sub Divisions also. He may therefore
be kindly let off with a severe warning this time in the peculiar
circumstances of the case. Government may kindly be pleased to
permit me to pass the increments ^{*due*} of Mr.G.Krishnaswamy as usual.

I have the honour to be,

Sir,

Re: the loss of Measurement Books Nos. 41384185.

Sir,

In obedience to your orders, I beg to bring to your kind notice that as already represented, the Surveyor at Kunigal wanted the measurement books urgently ^{who} ~~and~~ sent words for the same.

⁹
~~The packet was~~ sent to Kunigal with Mr. N.-Venkatappa, Vice-President of Kunigal Municipality, ^{who is} also a long standing respectable contractor in this Department.

Due to my ill-luck, the packet was lost by him on the way, as intimated by him in his written statement which is in the original file.

The books were sent with a respectable gentleman in good faith just to save time but the result was other-wise. I beg ^{of} you to kindly excuse me for this.

I beg to remain,

*Sent to Secy
10/12/45*

The above measurement books belonging to Kunigal Section were sent
by the Sub Division Clerk through one Mr. Venkatappa, Contractor, Kunigal,
without my knowledge and I have submitted my report to that effect;
After obtaining early enough statements both from the clerk and the
~~xxxxx~~ contractor I have submitted my report to the Executive Engineer,
Tumkur Division. In the absence of the exact copies of the these
statements and the report, I can only state from memory; that firstly
the clerk has admitted his having sent the books himself and the ~~cont~~
contractor has stated that he took the books from the clerk, and mislaid
them while they were in his possession.

My report and the statements are with the Superintending Engineer,
Mysore Circle, Mysore and the Superintending Engineer has also read my
report to the Chief Engineer for Irrigation in his letter No. 114
1-11-45 stating that measurement books were sent by the clerk with
the knowledge of the Assistant Engineer (vide 1st portion of the
